Subject: Construction of community hall on first floor on the existing ground floor.

Sir/Madam,

Reference has been received in the Ministry seeking clarification as to whether construction of first floor on the existing community hall on the ground floor can be permitted.

2. In the context of circular no. C-42/Misc/2013-MPLADS dated 20.04.2015, it is clarified that additional construction of a first floor of an existing community centre is in the nature of augmentation of the capacity of the existing community centre and may not be construed to imply that a second, new community centre is being constructed. Therefore, construction of additional floors on the existing community halls in cities where there is shortage of land is permissible.
